

ANKIT KUMAR

Front-End Web Developer | JavaScript & REST API Integration | Business & Client Communication

Meerut, Uttar Pradesh, India | +91-9576368279 | ankit20136@gmail.com

LinkedIn: linkedin.com/in/tech-ankitkumar | GitHub: github.com/tech-ankit-kumar

PROFESSIONAL SUMMARY

BCA student (2024-2027) with hands-on experience building responsive, front-end web applications using HTML5, CSS3, and JavaScript, including live REST API integration, DOM manipulation, and browser storage. Skilled in Git/GitHub-based version control and deployment via GitHub Pages, combined with strong client- and stakeholder-facing communication, requirement gathering, and technical presentation skills. Seeking an entry-level Web Developer / Web Developer cum Sales Engineer role to apply front-end development fundamentals, fast technical learning, and clear client communication to building and supporting web-based products.

SKILLS

- **Web Development:** HTML5, CSS3, JavaScript (ES6+), Responsive Design, DOM Manipulation, CSS Grid & Flexbox
- **APIs & Data:** REST API Integration, Fetch API, Async/Await, JSON, Geolocation API, LocalStorage
- **Programming Languages:** Python, JavaScript, Java (Swing), C++
- **Development Tools:** Git, GitHub, GitHub Pages, GitHub Actions (CI/CD), Visual Studio Code
- **Client & Business Communication:** Stakeholder communication, requirement gathering, technical demonstrations, active listening
- **Recruitment & Operations:** Candidate sourcing, information management, task coordination
- **Productivity Tools:** Microsoft Excel, Word, PowerPoint, Google Workspace

PROJECTS

ExpenseWise | Java, Java Swing, Java NIO, Local File Storage | github.com/tech-ankit-kumar/Expense-Wise

- Built an offline-first desktop personal finance manager, measured by complete income and expense tracking with add, edit, delete, undo, and search/filter by date, category, and type, by developing a Java Swing dashboard with sidebar navigation.
- Delivered monthly budget tracking and recurring transactions, measured by live budget-progress monitoring and automatic processing of recurring entries, by implementing budget and recurring-transaction logic with a calendar view.
- Enabled reporting and personalization, measured by one-click export to PDF, Excel (.xlsx), and CSV, plus light/dark/gradient themes, 6 languages, and multi-currency support, by using Java ZIP/NIO APIs with hashed-password user profiles and local data storage.

Keystride Typing App | HTML5, CSS3, JavaScript, LocalStorage | github.com/tech-ankit-kumar/typing-master-pro

- Built a browser-based typing practice app, measured by a 12-lesson structured course with guided drills, timed tests (1/2/5 min or custom), and live WPM and accuracy tracking, by handling keyboard events in vanilla JavaScript.
- Developed 8 interactive typing mini-games with XP, levels, streaks, and achievement badges, measured by engaging, repeatable practice sessions, by implementing game-state, timer, and scoring logic.
- Delivered a statistics dashboard and printable Certificate of Completion, measured by persistent profiles and progress across sessions, by using LocalStorage and dynamic certificate generation with a responsive dark/light UI.

Smart Invoice Generator | HTML5, CSS3, JavaScript

- Built a client-facing invoice generator, measured by full invoice lifecycle support (create, edit, search, delete), by structuring dynamic, event-driven UI logic in vanilla JavaScript.
- Delivered accurate GST/tax and discount calculations with UPI QR payment display, measured by consistent real-time invoice totals, by implementing structured calculation logic.
- Enabled reliable business record-keeping, measured by persistent invoice history across sessions, by using browser LocalStorage alongside print/save-as-PDF export.

EDUCATION

Bachelor of Computer Applications (BCA) — 2024-2027 (Expected)

Meerut Institute of Technology (MIT), Meerut, Uttar Pradesh

CERTIFICATIONS

- **AI Data Engineer Certificate Programme** — Reliance Foundation Skilling Academy (Skill India Digital)
- **Introduction to Generative AI Studio** — Google
- **Python Development Internship** — Securozen
